

The following two cards are examples of those coded for Leadership:

“A leader is a dealer in hope.”

-Napoleon Bonaparte

“Where there is no vision people perish.”

-Proverbs

And the following cards are coded for Learning:

“Pain in the present is experienced as hurt,
pain in the past is remembered as anger.”

-Gaelic Proverb

“By seeking and blundering we learn.”

-Johann Wolfgang von Goethe

It is not necessary to pose a framing question so that it addresses Leadership, Learning or Life. Indeed the coding on the cards is subtle to discourage seeking out cards based on just one domain. That a quote from one of the three domains can become valid in another is often a fascinating piece of data that may lead to further insights.
